

## The European Serious & Organised Crime Conference 2015

22<sup>nd</sup> April 2015. Renaissance Brussels Hotel, Brussels.

(including **pre-conference dinner** on the 21<sup>st</sup> April. Théâtre du Vaudeville, Brussels)

Economic activity in Europe is subject to a range of pressures, not least the impact of organised crime on citizens and legitimate business. With employment and economic growth key priorities for the new Juncker Commission, set within a new institutional structure aimed at ensuring greater coordination in policymaking across the college, this conference will focus on the most pressing criminal activities damaging growth prospects, how cross-sector, cross agency cooperation can deliver on the targets to tackle serious organised crime and what the new European Commission's focus will be in the field of home affairs.

This conference will once again provide a platform for EU policymakers and law enforcement authorities to discuss with business leaders the means of combating serious and transnational crime. It will focus on the Serious Organised Crime priorities agreed by Council for 2013-2017 and, in particular, counterfeit goods, excise & VAT fraud. Discussions will also deal with the impact of terrorism and cyber crime on Europe's ability to do business, while examining the emerging, significant links between human trafficking and forms of organised criminal activities.

### Agenda

08:30 – 09:00 **Registration**
