

Data Analyst

Transcrime is the Research Centre on Transnational Crime of the Università Cattolica del Sacro Cuore in Milan (www.transcrime.it), is looking for a brilliant and proactive data analyst to collaborate to a **project on illicit trafficking**.

The ideal candidate is expected to have a very good and documented **knowledge of quantitative research methods**, strong familiarity with the most common software for database management (e.g. Excel, Access) and statistical analysis (e.g., SPSS, Stata), and to be proficient in the data analysis and elaboration and in drafting reports.

In addition, he/she must have **excellent knowledge of both oral and written English**.

The candidate will have the possibility to work from home, but he must ensure daily availability to discuss via Skype with the coordinator of the research project and to move, when required, to Transcrime offices in Milan.

The ideal candidate should be available to start as soon as possible. He/she will have initially a 6-month fixed-term contract that may be extended (salary according to experience and skills). In case of positive collaboration, the candidate will have the possibility to work for another of Transcrime's project.

Interested candidates are requested to apply by sending an e-mail to transcrime@unicatt.it and attaching their English CV and a motivation letter (in English) stressing the reasons why they should be selected for the job. Short-listed candidates will be contacted for a Skype interview in English.
